EDUCATION

KIET Group of Institutions

Bachelor of Technology in Computer Science | CGPA: 8.01

Aug 2024 – May 2028
Ghaziabad, Uttar Pradesh

EXPERIENCE

CPBYTE, KIET Ghaziabad

DSA Coordinator & Competitive Programming Problem Setter

Sep 2025 – Present
Ghaziabad, India

- Mentored **150+ students** in Data Structures, Algorithms, and competitive programming fundamentals.
- Designed and curated **100+ problem sets** across LeetCode, Codeforces, and CodeChef.
- Collaborated within a **5-member core team** to organize coding events and structured learning roadmaps.

CPBYTE, KIET Ghaziabad

Technical Team Member

Mar 2025 – Sep 2025
Ghaziabad, India

- Co-developed and maintained the official club website using modern frontend development workflows.
- Implemented responsive UI improvements and frontend feature enhancements across multiple web components.
- Collaborated with a **6-member team** using Git/GitHub workflows and version control practices.

PROJECTS

Saksham: Voices of Bharat | *React.js, Tailwind CSS, Flask*

Live | [GitHub](#)

- * Built an inclusive digital platform empowering physically challenged individuals through accessible technology solutions.
- * Developed responsive frontend interfaces using **React.js** and **Tailwind CSS**.
- * Implemented a text/PDF reading assistant with word-by-word reading and multiple accent support.
- * Achieved **90%+ user satisfaction** during early beta testing with 50+ users.

ReUnix: Connect Mentor Grow | *React.js, TypeScript, Tailwind CSS*

Live | [GitHub](#)

- * Built a mentorship-focused platform connecting students with alumni for career guidance and networking.
- * Developed responsive frontend components using React.js, TypeScript, and Tailwind CSS.
- * Integrated AI chatbot workflows for automated query handling and improved engagement.

Open Source Project Finding Agent | *React.js, Tailwind CSS, Flask, GitHub REST API*

Live | [GitHub](#)

- * Built a frontend application integrating **GitHub REST APIs** for intelligent open-source project discovery.
- * Implemented repository ranking and filtering based on stars, activity, and open issues.
- * Designed responsive UI components and asynchronous API-fetching workflows using modern JavaScript practices.

TECHNICAL SKILLS

Languages: C++, Python, Java, JavaScript, TypeScript, SQL

Frontend: React.js, Tailwind CSS, HTML5, CSS3, Responsive Web Design, REST API Integration, React Router

Backend & Databases: Flask, MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, AWS EC2, AWS S3, AWS IAM, Postman

Libraries: C++ STL, Java Collections, pandas, NumPy, Matplotlib

Core CS: Data Structures & Algorithms, OOP, Problem Solving, Competitive Programming

ACHIEVEMENTS & CERTIFICATIONS

- * **AWS Certified Cloud Practitioner** – Amazon Web Services Credential
- * **LeetCode:** Peak Rating **1737** with **676+** DSA problems solved.
- * **ICPC Preliminary Round:** Global Rank **1457** and Institutional Rank **7**.
- * **Competitive Programming:** CodeChef 2-Star (1413 Rating) | Codeforces Rating 1083.
